We had 17 hours of interviews which needed transcribing and a fast-approaching delivery deadline for a documentary. We decided to try iSource and were impressed by their courteous and professional service, and by their lightning-fast turn-around time. Their prices were also extremely reasonable. After this experience, they are our transcription service of choice for any job big or small. If you're in a hurry and need fast, accurate and very reasonably-priced transcription services, iSource is the number one choice.
